RE: Water Quality Certification Order #7184 for Corps Public Notice NWS-2009-170

Dear Mr. and Mrs. Ward, and Mr. Holmquist:

On March 27, 2013, C. Bradley and Sharon Ward and Keith Holmquist, through authorized agent Ryan Walker, Grette Associates, submitted a revised Joint Aquatic Resources Permit Application (JARPA) to the Department of Ecology (Ecology) requesting a Section 401 Water Quality Certification. A revised joint public notice regarding the request was distributed by the Army Corps of Engineers (Corps) for the above-referenced project pursuant to the provisions of Chapter 173-225 WAC on August 5, 2013.

The applicant proposes to construct one F-shaped joint-use fixed pile pier (620 square feet extending 70 feet into Lake Chelan from the Ordinary High Water Mark) with fourteen 6-inch diameter and six 4-inch diameter steel piles anchored by six 2-foot by 2-foot by 4-foot concrete footings, three 2-foot by 2-foot by 3-foot concrete footings and one 2-foot by 2-foot by 8-foot concrete footing; installation of three boatlifts and three large woody debris structures. No removal of vegetation would be necessary.

Ecology issued Water Quality Certification Order # 7184 for Corps Public Notice NWS-2009-170 on October 27, 2009. Ecology has determined the revised project does not require a new water quality certification or modification to Order #7184.

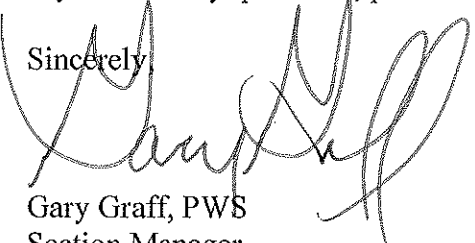

This letter also serves as the State response to the Corps of Engineers' August 5 2013 Public Notice.
